## Developer certification

---

This document certifies that **Adrián Insaurralde Avalos** is a core developer and maintainer of the FreeCAD open-source project. Adrián is mentioned as a maintainer on the project's forum (under username *adrianinsaval*) [1] and has maintainer status on the project's code repository [2]. He is a long-term developer of the project and his constant contributions can be traced back to 2020 on the project's history [3].

Adrián is also on contract with the FreeCAD project association (FPA), the non-profit body that represents the FreeCAD project and community, to deliver permanent release maintenance and support to the FreeCAD project [4]. He is therefore also the responsible person to sign the packages produced by the project [5].

As the chairman of the FreeCAD project association, I vouch entirely for Adrián and am at your disposal if you need more ample information or proofs of relationship between him and the FreeCAD project.

Best regards,

**Yorik van Havre**

chairman of the FreeCAD project association
